Subject: Re: FOIA REQUEST # 2018-010473

please cancel my request - it has been bounced from one department to another to come back to the same point - this property does NOT have an address - only a PIN - I gave the address of the property next door to one of the case workers weeks ago and that should have been good enough to find this parcel knowing it is an old dump site. The property comes up for sale at auction tomorrow so there is no time for me to finish my due diligence on this parcel so at this point, I have very little interest in solving this properties problem by purchasing it

Good afternoon John, I'm working on the above FOIA request regarding Parcel Identification Number (PIN) 30-07-19-100-020-0000 located in Will County. Your requesting information about possible EPA concerns. Do you have a physical address. Unfortunately, we do not process searches using PIN numbers. We out an address we can't process your FOIA request. Please advise, thank you.
